**FOR ALL THE CONTINUED SUPPORT**

## True Family Partnership

At our company, we are dedicated to revolutionizing your gun cleaning experience, making it faster, easier, and more efficient than ever before. We take pride in the thoughtful design of our products, aimed at enhancing your firearm maintenance routine and keeping your guns in top-notch condition.

Our brushes are meticulously engineered and wound tighter for extended durability, ensuring a longer brush life for continuous reliable use. We understand that safety is paramount, which is why our SAF-T-CLAD™ rods are a key part of our offerings, guaranteeing safe and effective cleaning without any risk of damaging your firearm's barrel or components.

When it comes to cleaning patches, we don't compromise on quality. Our 100% cotton flannel patches with a double napped finish are specifically crafted to handle all types of solvents, enabling you to achieve a thorough clean and maintain peak firearm performance.

To complete your gun care regimen, we offer high-quality cleaners and degreasers that work tirelessly to remove fouling, dirt, and grime while also providing excellent lubrication and protection. Your firearms deserve the best care, and our products are designed to deliver just that.

Our ultimate mission is to redefine gun care, empowering gun owners like you with superior and intelligent solutions to preserve the condition of your firearms. By continually rethinking and improving our products, we aim to set new standards in the industry and ensure your firearms remain in optimal shape for years to come. Trust us to make your gun cleaning experience exceptional, so you can focus on what matters most - enjoying your firearms with peace of mind.

**KLEENBORE® IS YOUR ONE STOP SHOP!**

Our team at KleenBore® unanimously agreed that it was high time for a complete overhaul of our Classic Kits. We were ready to bid farewell to the outdated packaging sleeve and old kit box, believing that our valued customers deserved a truly exceptional experience. After extensive analysis and brainstorming, we embarked on a journey to set ourselves apart from the rest of the cleaning kit industry, and we are proud to present the pinnacle of cleaning kits. Our innovative design has given birth to a compact, all-inclusive kit that is unparalleled in the industry. Featuring exclusive elements that no other cleaning kit can boast, we've taken every step to ensure that this product truly stands out. The addition of a sliding hang tab and a sliding lock/unlock mechanism offers an unmatched level of security and durability, making this kit resilient enough to endure prolonged use. We don't want to label this as just another gun cleaning kit; this is your ultimate gun cleaning tool kit. Get ready to experience the KleenBore® difference, where quality, innovation, and user-friendliness come together to redefine what a gun cleaning kit should be.

## WORKING LENGTH

Handgun Kits: 6.5"

Rifle Kits: 32.5"

# KEY KIT FEATURES

 **Mil-Spec CLP 1/2 OZ:** 1/2 oz bottle with dropper tip. Only available in the new style kits and refillable.

 **Red J Bore Light:** Self-Illuminating red bore light, works with any ambient light. Last step in cleaning process to inspect your barrel.

 **Swivel T-Handle:** Detachable swivel t-handle #8-32 thread for easy storage and convenient use.

 **Microfiber Cloth:** 4" x 6" Waffle Weave microfiber cloth. Super absorbent, reusable, and washable.

 **UT221-C:** Compact 5" 3-in-1 Triple Action All Purpose Utility Brush. Three different brush faces for cleaning hard to reach areas, bolts, bolt faces, slides, etc.

 **Rod Component Holder:** 5 Pc. Rod Component Holder to hold your cleaning rods together and ready for your next cleaning.

*\*All Rods are #8-32 thread 6.5" working length*

**SUPER CARBON FIBER ONE  
PIECE CLEANING RODS**

The KleenBore® Premium Super Carbon Fiber Rifle Cleaning Rod is a high-quality cleaning rod designed to be lightweight, durable, and include non-marring properties. The carbon fiber construction ensures effective and safe cleaning of your rifle's bore. Carbon Fiber combines the best features of stainless steel and coated cleaning rods. Carbon fiber rods are the best of both: the carbon fiber can't scratch your bore like stainless steel, and they won't embed like coated rods.

### MIL-SPEC CLP DISPLAY

POWERED BY: 

#### KLEENBORE® MIL-SPEC CLP (MIL-SPEC 63460F TYPE-A)

Originally this CLP was developed for the U.S. Military and proven in the world's most extreme conditions, along with being trusted by Military and Agencies around the world.

Our proven CLP formula cleans burnt powder residue and other fouling found in the bore, on moving parts, and the exterior. Most importantly, it provides rust and corrosion protection, reduces friction, and will not break down under extreme pressure or operating temperatures.

**\*\* PERFORMS IN TEMPERATURES RANGING FROM -65° F +475° F, AND AFTER SALTWATER IMMERSION**

# KWICK-KLEEN PULL THROUGH ROPE CLEANERS

KleenBore® rope cleaners are a high-speed bore cleaner designed to quickly and effectively clean firearm barrels. It offers a three-step cleaning process in one pass, making it one of the fastest bore cleaners available. One of the convenient features of the rope cleaner is the brass weight attached to the end of the pull cord. This weight is stamped with the caliber of the rope cleaner, allowing users to easily identify which cleaner they are using, especially if they have multiple calibers of firearms. Moreover, this design incorporates two bore brushes directly into the rope cleaner at its front end. Simultaneously, the trailing end of the rope functions as a mop to comprehensively clean, delivering maximum cleaning capability. This quick and efficient cleaning process helps maintain the performance and longevity of your firearm by removing fouling and loose debris from the barrel.

The "Less Lethal Kit" is now available to address the specific cleaning needs of 37mm/40mm and 12 GA Riot Shotguns. Working in conjunction with a major manufacturer of launching systems, law enforcement, as well as military personnel, KleenBore® has developed a cleaning system that handles these weapons unique requirements.

## TACTICAL MAINTENANCE KIT

**WORKING LENGTH: 29.5"**

KleenBore's Tactical Maintenance System-All-Inclusive Cleaning Kit for Tactical/Law Enforcement Firearms. This premium cleaning kit comes equipped with everything you need to clean various calibers, making it a versatile and essential tool for the field, range, or LE team use.

### Comprehensive Caliber Coverage:

The kit includes components to clean the following calibers: .223/5.56 MM, .30/7.62MM, .38/.357/9MM, .40/.41/10MM, .44/.45 Calibers, and 12 Gauge. No matter the firearm, KleenBore® has you covered.

### Designed for Tactical / LE Firearms:

Tailored specifically for the rigorous demands of Tactical and LE use, this kit ensures your firearms remain in optimal condition for critical operations.

### Convenient Packaging:

All components are neatly organized in a durable fabric zippered pouch with internal compartments. Stay organized and ready for action at all times.

### Premium Quality:

KleenBore® is a trusted name in firearm maintenance, and this kit lives up to the brand's reputation for exceptional quality and reliability.

Precision machined rods are manufactured from top quality stock to exacting tolerances and surface smoothness. Tough nylon handles (except for S170) provide a smooth rotating action, which allows the accessory to accurately follow the rifling in the barrel for ideal cleaning. Shotgun handles do not rotate. Multi-section rods are packaged in tough compartmentalized, vinyl pouches and durable plastic clamshell packages that are reusable and easy to store.

## VALU-PACK™ RODS

Truly an economic cleaning package equipped with popular KleenBore® hardware. Steel rod sets are featured in these kits because of their strength and durability. Also included in the rifle and shotgun cleaning kits is a muzzle guard, patch holder, phosphor bronze brush, and a 100% cotton mop. These are not included in the handgun/rifle kit because of its universal nature. Cleaning sets are packaged in a convenient, reusable, see-through clamshell.

# SPECIALTY BRUSHES

## PATCH HOLDER BRUSH

A177PH .22/.223/ 5.56MM

A190PH .38/.357/9MM

A180PH .30/7.62MM

A192PH .44/.45 CAL.

Item# A177PH

## PATCH HOLDER BRUSH

Patch holder bore brushes are designed to provide faster, more efficient cleaning for hunting, tactical, law enforcement, and military applications. This premium bore brush has a slotted patch holder at the front end of the brush to create an integrated cleaning accessory.

## STAINLESS STEEL CYLINDER BRUSH **REVOLVER**

C201 .38/.357 CAL.

C203 .44/.45 CAL.

Item# C201

## STAINLESS STEEL CYLINDER BRUSH

These brushes are sized properly to clean the cylinder chambers of a revolver. Helps remove carbon build-up within the chambers for ease of loading and extraction.

## MILITARY STYLE BRUSHES **#8-36 THREAD**

M16B .223/5.56M

M16C .223/5.56MM [CHAMBER]

Item# M16B

Item# M16C

Designed for M-16, AR-15 & similar rifles, both the bore and chamber brushes have the core wire looped through a brass coupling, threaded #8-36. The bore brush will clean any .22, .223 and 5.56mm. The chamber brush is configured with two brush diameters; the first stage of phosphor bronze cleans the chamber area, while the second stage of stainless steel cleans the bolt lock up area. Please note that the #8-36 coupling is not a standard thread size and will not fit most commercial cleaning rods. However, these will fit most KleenBore® multi-section rifle rods found in the Classic Rifle Kits and the All Caliber (S170) rod set.

## CHAMBERMATE™ BRUSH

SC205 12GA

SC225 12 GA (TOOL & BRUSH)

Item# SC205

Item# SC225

## CHAMBERMATE™ TOOL AND BRUSH

Great for cleaning powder fouling and plastic from chambers and choke area. The heavy-duty phosphor bronze brush with its tapered nose, is made to fit these difficult-to-clean areas. A rugged tool with a strong, rigid aluminum rod and sure-grip handle.

## 37MM/40MM LAUNCHER BORE BRUSH & MOP

These "Heavy-Duty" bore brushes and mops were designed specifically for maintaining both 37mm/40mm Gas and Grenade launchers. The phosphor bronze bristles are rugged enough to handle the toughest of combinations of powder fouling and plastic buildup, yet gentle enough to not damage the bore. This highly absorbent cotton cleaning mop is ideal for applying solvents to a fouled bore or apply lubricants after cleaning is complete. Male coupling thread size is #5/16-27.

Item# GLB40LL-1304

Item# GLM40/LL-1304

# UTILITY BRUSHES

## Nylon Bristle Gun Brush

Really two brushes in one. This nylon fill brush was designed for cleaning all the intricate parts of an M-16. This military spec. Brush is great for cleaning any type of firearm, especially where a gentle touch is required. The multiple bristle end is perfect for scrubbing all areas of receivers, actions, slides, frames, etc. use the single row bristles for hard-to-get-at areas. The nylon bristles are rugged and solvent resistant.

## Stainless Steel Gun Brush

Rugged stainless steel bristles make short work of caked-on powder residue and burn marks on revolver top straps, frames and cylinders. Rugged black nylon handle with finger grooves and hang hole.

## Phosphor Bronze Gun Brush

A superb, general purpose, gentle-on-the-finish brush for cleaning powder and lubrication residue from handguns, rifles and shotguns. Rigged black nylon handle with finger grooves and hang hole.

## MagBrushes

An important item for competitive shooters, law enforcement, military or wherever positive ammo feeding is critical. The patented MagBrush cleans and addresses a commonly overlooked area of maintenance on magazine-fed firearms. Removes gummy residue, dust, dirt and unburned powder from inside the magazine and well for quicker, easier magazine release and increased reliability for cartridge feed.

## MagSwab

Model No. Mag-208  
9mm staggered .38/10mm/.40/.45 Cal.

Companion to the MagBrush series, the MagSwab can be used with a solvent to mop clean the inside of magazines and the magazine well. Have an addition MagSwab on hand to solely apply a light coat of lubricant to protect both areas after cleaning.

# CLEANING CLOTHS

## GC220P 10 CLOTHS PER CASE

**CLOTH SIZE: 10" X 10" (25.4 X 25.4 CM)**

Our Silicone Cloth

- Restores and protects the luster of a firearm
- Removes handling marks and fingerprint oils
- Returns a brilliant sheen to firearms surface

## GC221 10 CLOTHS PER CASE

**CLOTH SIZE: 10" X 10" (25.4 X 25.4 CM)**

Our Lead Away Cloth

- Removes tough lead and carbon build-up
- Excellent for removing burn rings on cylinders and stainless steel

**CAUTION: DO NOT USE ON BLUED OR CASE HARDENED SURFACES**

## MCR \*\*\*NEW FOR 2024

### MICROFIBER CLEANING CLOTH

The KleenBore® Waffle Weave pattern consists of raised squares that create a textured surface. This design helps to increase the cloth's surface area and enhance its absorbency and cleaning capabilities.

- SUPER ABSORBENT
- WASHABLE/ REUSABLE
- 2 PER PACK
- LINT & STRING FREE

## CHAMBER FLAG

**KB-CF**

Our Chamber Flags are a way for you to stay safe on the range, in the field, or while hunting. When transporting or storing your semi-auto handguns, a chamber flag indicates the firearm is clear and no round can be chambered, adding an extra layer of security when handling the firearm. Made of highly visible and rugged nylon material for durable use. Can also be conveniently kept on your key chain for easy access.

## STAINLESS STEEL GUN PICK SET

**KB-PICKSET**

This five piece Pick Set contains different shaped tools at each end to get into those tight, hard to clean/reach places. Each pick and hook is a finely crafted set of tools made in the great American tradition. Won't break or wear down like plastic tools and gives you better leverage and control for cleaning. Made with high quality stainless steel that is softer than barrel steel to ensure no damage to gun parts.

## 3 PIECE PICK & BRUSH SET

**KB-PBSET**

This 3 Piece Pick and Brush Tool set provides the perfect combination for maintaining and cleaning your firearm. The nylon utility brush is great for scrubbing vent ribs, trigger assemblies and receivers while also being solvent resistant. The double ended stainless steel tool picks are extremely durable and excellent for precision cleaning in hard-to-reach places. Together this creates a distinguished mix in one complete purchase.
