Pro-Shot: A Legacy of Quality American Made Firearm Cleaning Products

Welcome to the Pro-Shot catalog, where we take pride in our heritage, deeply rooted in the shooting sports and hunting community. For generations, the Damarin family's passion for firearms has been at the heart of our story.

In 1982, our founder, John E. Damarin, embarked on a journey to create the finest American-made firearm cleaning products. The driving force behind this endeavor was the family's long-standing involvement in shotgun, rifle, and pistol matches all over the Midwest. Shooting has never been just a pastime for us; it's a way of life and a true passion. Quality and consistency are the cornerstones of our philosophy. John E. Damarin's vision was to produce cleaning products that not only worked faster and more efficiently but were proudly made in our hometown of Taylorville, Illinois. That commitment to American craftsmanship remains unwavering.

Our family's dedication to the shooting sports has seen multiple generations actively engaged in the business. From our grandmother's lessons in organization to our grandfather's hands-on role, Pro-Shot is the embodiment of a family's American dream turned reality.

Pro-Shot was born out of a simple yet critical problem during a shooting match when a plastic patch holder became lodged in a barrel. The incident inspired John E. Damarin to tell his son that they could create better gun cleaning accessories. The rest is history, and our first product, firearm cleaning patches, was created in our small one-car garage. The early days involved a lot of hard work, handcrafting patches, and printing bags, all while instilling in the young generation the values of quality, value, innovation, and hard work.

Today, we continue to pass down our passion, uphold our unwavering commitment to quality, and provide excellent service to the shooting sports community. Pro-Shot Products has now reached its 4th generation, and we are grateful for your support.

Thank you for choosing Pro-Shot, and we sincerely hope that our products bring you as much joy as they have brought to our family and our dedicated staff, who take great pride in creating them for shooters worldwide.

Thank you!
from
The Damarin Family & Dedicated Staff

WHY CHOOSE PRO-SHOT SPLATTER SHOT TARGETS?

- Excellent Splatter effect makes shot clearly visible downrange.
- Peel & Stick targets not only adhere in normal situations, but in range and field use have proven them to out stick the competition in Morning Dew, Dust, and Sand Environment.
- Resealable (Zip Top) packaging makes it easy to keep and use targets during multiple range visits.
- Quality targets at affordable costs to you.
- Exclusive reactive target repair/pasters on roll.
- Tactical design targets for pistol/rifle/shotgun.
- High/Low visibility targets that are great for all shooting light conditions.

ABOUT MASTER PROVEN

Master Proven is an independent, 3rd party testing and evaluation organization. The goal is simple: determine what works, how it holds up to punishment, and whether the price is objectively reasonable in the context of purpose, construction, and performance. The Master Proven evaluation team is drawn from across a broad spectrum of military, law enforcement and other tactical professionals. Team members are all current or former; Soldiers, Marines, Airmen, Sailors, Coast Guardsmen, Police Officers, and Sheriff's Deputies. In many cases they are both, and include a wide array of disciplines (Special Operations/ SWAT, EOD, Scouts, Snipers, Patrol, and Detectives). Evaluators are divided into teams headed by one of our Master Sergeants, MPO's (Master Police Officers) or other Master Team Leaders. Collectively, these Master Team Leaders have over 150 years of real world tactical experience. End users can have confidence that the items in question will have undergone a rigorous and thorough testing.

COMPACT KITS

1 & 2 PIECE RODS

Premium Stainless Steel Micro-Polished Rods

STAINLESS MICRO-POLISHED ROD WITH SWIVEL HANDLE

Why Is a Pro-Shot Rod The Best In The World?

- Pro-Shot made to spec stainless steel rods are less hard than barrel steel
- Heat treated for strength and durability. Increases the rod life and performance due to less rod flex during use
- Centerless grinding process on all rods manufacturing process: Mirror Finish Polish and Micro Polishing/Burnishing
- The Mirror Finish Polish prevents the rod from picking up abrasive fouling or grit and carrying it through the bore scratching the barrel
- Micro Polishing/Burnishing builds the coating into the rod manufacturing process to give the stainless a pristine and totally smooth jeweled finish
- Proprietary handle design allows rod to spin with rifling and clear the high stocks of certain rifles with ease
- Easily handle harsh solvents with no rod deterioration
- Each rod includes a patch holder or jag
- Advertised length is the actual working length of the rod, for full length add four inches for the handle
- Packaged and shipped in a reusable plastic tube for storage and transport
- Made in USA

Chamber Tool

10" Working Length Stainless Micro-Polished Rod with Fixed (Non-Rotating) Full Size Handle designed for cleaning pistol and rifle chambers. #8-32 Thread.

ITEM # CH2

37MM/40MM Grenade Launcher Rod

The Rod is designed specifically to clean and maintain the military issue M203(40mm) grenade launcher and 37mm variants. The cleaning rod features micro-polished stainless steel rod and a fixed red aluminum handle.

FIXED (NON-ROTATING) FULL SIZE ALUMINUM HANDLE
12" STAINLESS STEEL ROD | THREAD SIZE #5/16-27

ITEM # 37GLRD

Flexible Chamber Tool

The flexible chamber tool is used for cleaning semi-automatics and lever action firearms that are not easily taken apart. The tool has a flexible cable that is used through the loading or ejection port of the action to gain access to the chamber which is attached to a Fixed (Non-Rotating) Full Size handle. The attachment of a chamber mop or a bore brush with a patch wrapped around the brush does an excellent job of cleaning the chamber.

ITEM # CH1

Tornado Brushes

Often referred to as "The Gunsmith Brush," Pro-Shot's Tornado brushes have a special spiral-wound design that's highly effective for cleaning bores. The brass loops eliminate any bristle end that could leave scratches, yet removes fouling without damaging the bore. The spiral design makes it easy to reach all of the hard to get spots. All brushes have #8-32 thread, except 12 & 20 GA. which are #5/16-27 thread.

Patriot Series Heavy Duty Nylon Bristle Bore Brushes

Pro-Shot's Patriot Series Nylon Bore Brushes are made with super stiff bristles that help remove fouling without damaging the bore. Excellent for use on heavily fouled barrels. Pistol/Rifle Brushes: #8-32 thread, Shotgun Brushes #5/16-27 thread

- Stiff heavy duty red, white, and blue nylon bristles
- Will not flatten like standard brass bristle brushes
- Made with solid Brass Core and Coupling
- Stiff Colored Bristles resist ammonia and oil-based cleaners

WORLD FAMOUS PATCHES

PRO-SHOT 100% COTTON FLANNEL PATCHES HAVE BECOME KNOWN WORLDWIDE FOR THEIR SUPERIOR CLEANING POWER & CONSISTENCY

WHY ARE PRO-SHOT PATCHES THE BEST IN THE WORLD?

- AMERICAN GROWN, MILLED, & MANUFACTURED FINEST QUALITY COTTON
- CONSISTENT THICKNESS, SHAPE AND WHITE IN COLOR
- DESIGNED TO HANDLE ALL SOLVENT TYPES, EVEN HARSH CHEMICALS
- EXCLUSIVE THREAD COUNT WITH A WEAVE DESIGNED TO CATCH/TRAP MORE FOULING
- FINISHED ON BOTH SIDES FOR EXTREME ABSORBENCY
- PACKAGED IN REUSABLE ZIPPER TOP BAGS

Tactical Wipe Cloths

ITEM # TWC

The cloths are 100% cotton flannel, finished on both sides, packaged in a reusable bag, and are intended for wiping any excess oils from your firearm during and after the cleaning process. Pro-Shot's Tactical Wipe Cloths are great to keep with your favorite tactical gear for a handy, untreated, and quality cleaning cloth.

Metal Care Cloth

ITEM # MMC

This cloth makes polish obsolete. Cleans all metal exterior on firearms including blued and stainless surfaces, and also removes surface rust and tarnish. This non-toxic cloth also works great for cleaning and protecting knives, tools and other gear. Comes in a reusable bag for future use.

Lead Clean Gun Cloth

ITEM # LCC

This cloth is excellent for Stainless Steel Firearms. Restores original luster, while removing lead, carbon residue, & tarnish. The cloth can be cut to desired size or into patches to remove unwanted residue inside the chamber, cylinder, forcing cone, and the bore/choke area. Comes in reusable bag.

- USE ONLY ON STAINLESS STEEL FINISHES-NOT FOR USE ON BLUED OR CASE-HARDENED FINISHES

Silicone Cloth

ITEM # SILC

Our silicone cloth has become a shooter's favorite, made of double napped 100% cotton flannel and double treated with pure silicone. The silicone cloth removes fingerprints, potentially corrosive epidermal oils and also polishes, and cleans. Packaged in a reusable poly bag, staying clean & moist after use.

Wiping Cloth

ITEM # WIPE

12" x 12" non-treated cotton flannel cloth packaged in a reusable bag. Finished on both sides for absorbency. Can be used for wiping firearms or about any object. Package contains 3 cloths.

1 Step CLP Cloth 12x12 Treated Cloth

ITEM # 1 STEP-CLOTH

Our famous 1 Step CLP cloth makes it fast and easy to wipe down gun metal on outside of firearm or metal gun parts to remove fouling/residue.

- *Removes Lead, Powder, Plastic, and Copper Fouling
- *Rust and Corrosion Protection
- *Reduces fouling build-up with continual use
- *Great to use on the outside gun metal such as barrel or slide
- *Excellent for use during full breakdown of firearm to wipe off dirty firearm parts *12"x12" (30cmx30cm)

LUBRICANTS/DEGREASER/GUN BLUING

Bio-4x All Weather Gun Oil

- Non-Toxic, Biodegradable, Odor-Free Lubricant
- 4x as lubricious as petroleum based lubricants
- Made from renewable USA grown crop-based vegetable oils
- Helps parts to function better, frees rusted parts, prevents corrosion
- Multi- Purpose and all weather lubricant that penetrates instantly.
- -40° to 590° F operating temperature range

4X
MORE LUBRICATION

BIO4-NEEDLE	1 OZ. NEEDLE BOTTLE OILER
BIO4-GAL	1 GALLON JUG

Zero Friction

ADVANCED SYNTHETIC LUBRICANT

Premium Ultra-High Technologically Advanced Synthetic Lubricant Specifically Designed For Firearms and Knives

Zero Friction is a combination of a premium synthetic base, extreme pressure additives, anti-wear, anti-oxidants, and rust preventative additives. This lubricant provides smooth performance and protection on all moving metal parts. Operates in extreme heat and cold providing lubrication from -75° to over 450° F

Item #	Description
ZF-1	1 OZ. NEEDLE BOTTLE OILER
ZF-SPRAY-6	6 OZ SPRAY CAN
ZF-GAL	1 GALLON JUG

Pro-Gold Lubricant

Excellent for Firearms, Reloading Tools, Sports Equipment, Fishing Tackle, & Compound Bows

Superior high-quality formula grease engineered for firearm lubrication and protection. Superior performance on stainless, chrome moly, nickel, and blued firearms. Prevents metal wear in the following areas: bolt action, locking lugs, actions, frame, rails, shotgun hinge pins, reloading tools, bearings, gear, and camming surfaces.

Item #	Description
PGL-SYR	10CC SYRINGE
PGL-1	1 OZZ. JAR

Fouling Blaster

- Synthetic Safe Degreaser/Cleaner
- Unique cap offers straw or wide spray option
- Safe for Most Firearm Finishes
- Quickly evaporates and Blasts Fouling away
- Solves most malfunction problems
- Makes cleaning firearms faster & easier
- Cleans fast, will not harm most plastic, wood, laminates, composites rubber grips, or any other material including camo finish

*Always Check Before Using. Especially on Antique or Special Finishes.

Item #	Description
D-14	14 OZ. AEROSOL CAN

Black Magic Gun Bluing

- Bluing Solution Model No. GB-2 2oz (60ml)
- High Performance Cold Bluing Solution
- Produces Deep, Penetrating Action To Restore Worn Or Scratched Gun Metal
- Maintains the Metal and Resists Against Rust/Corrosion
- Packaged In Hangable Clamshell With Child-Resistant Cap
- Available In Singles/10 Pack
- Made In USA

Item #	Description

GUN CLEANING: CLP/BIO MIL-SPEC CLP/DEGREASER/COPPER SOLVENT

1-Step Gun Cleaner & Lubricant CLP

Use Pro-Shot's 1-Step oz. needle dropper for pinpoint accuracy with no mess. Also great for those hard to reach areas that need cleaned.

- Excellent for removing Lead, Powder, Plastic, & Copper Fouling
- Repeated use protects the bore, lessens fouling, & residue buildup
- 1-Step CLP penetrates the metal making gun bores & actions easier to clean
- Cleans & Eliminates stiff actions, jamming, & loosens rusted parts
- Lubricates & Protects: Rust inhibitors & special additives penetrate the metal & provide a corrosion barrier for superior rust protection
- Synthetic Proprietary Formula

PC-8	8 OZ. SPRAY BOTTLE
PC-16	16 OZ. SPRAY BOTTLE
PC-GAL	1 GALLON JUG

Copper Solvent IV

Copper Solvent IV is a Superior New Generation Formula that is made specifically for copper and powder fouling, while providing rust protection for your barrel!

HOW IT WORKS FAST & EFFECTIVELY TO CLEAN YOUR BARREL

- Our synthetic formula uses activated positively charged ion additives that have a special affinity for copper & it's oxides
- The positively charged ions search out the negatively charged copper & copper oxide molecules. They bond & release the copper from the surface of the bore to provide a superior clean surface without copper & powder fouling
- Copper Solvent IV is a SMARTER, HEALTHIER, &

ENVIRONMENTALLY SAFER way to clean than the old brute force method of throwing harsh chemicals at copper fouling

- Includes an oil for Rust & Corrosion Prevention. Formula has NO ammonia

Item #	Description
SVC-8	8 OZ. BOTTLE
SVC-GAL	1 GALLON JUG

1 Step Bio MIL-SPEC CLP

Pro-Shot's 1 STEP BIO MIL-SPEC CLP keeps your weapon operating in Extreme Weather Conditions. This new BIO Mil-Spec formula is highly penetrating and operates at temperatures ranging from -54° C to 150° C (-65°F to 302°F). Contains a superior base of synthetic biodegradable oils along with anti-corrosion and anti-wear additives. It has excellent water displacing properties as well as a high flash point and very low odor. Formulated with a high content of renewable and bio-based materials.

- Meets MIL-PRF-63460f TYPE B
- NATO Code Number S-758
- Operates in Extreme Temperature ranges

- Excellent Rust & Corrosion Protection

Item #	Chamber Tool & Brush	Thread Size
CH12	12 GA	#5/16-27
CH20	20GA	#5/16-27

12 GA Chamber Brush

This chamber brush features heavy duty, stiff bronze bristles wrapped in a thick core that is looped on the end for strength & durability. This also avoids accidentally scratching the finish off of the firearm. The brush core is threaded to attach directly to the rod.

Item #	Gauge	Thread Size
12SB	12 GA	#5/16-27

Choke/Chamber Tool

Item# CHTOOL

This 4" working length compact tool is used with a bore or chamber brush to clean the choke & chamber. Great for the chambers of over & under, and side by side shotguns. Accepts #5/16-27 threads.

Shotgun Port Brushes

Item# PORT

Extra stiff, twisted wire, stainless steel brushes are tapered & sized to fit directly in the port. This will loosen residue & carbon fouling, leaving the port clean & ready to go.

12 GA Gas Cylinder Brush

This bronze bristled brush fits in the gas cylinder of an 1100 Remington, Winchester Super X, & Beretta. Residue builds up in the gas cylinder. Excessive build-up can effect the reliability & function of the firearm. This area needs to be clean since it is crucial to the gun's operation.

Cotton Mop Brass Snap Caps

Many Shotgun manufacturers recommend storing shotguns with the cocking spring tension let off. This can add to the functional life of the shotgun and keep it in optimum working order.

- Our Snap Caps are made with beautiful brass heads which have spring loaded firing pins for the ease of tension that is released when the shotgun is fired
- Pro-Shot's quality brass snap caps have cotton mops that fit into the chamber area for chamber rust protection, use Pro-Shot Zero Friction for added rust protection

BRASS ACCESSORIES

Brass Patch Holders

Item# PH17

Made specifically for cleaning patches for .17/.20 Cal. Rods

Item# PH12

This all brass patch holder will fit from 10-410 GA. This high quality patch holder will last for years and is great for frequent use and competition shooting.

Item# PHUS

Extended reach brass patch holder will fit from 10-410 GA. Especially useful for cleaning smaller gauges.

Item# PH30

The Brass patch holder is great for holding patches to clean the bore. The patch holder can be used for applying solvent and then swabbing out the fouling.

Item #	Size
PHB	.22 - .45 CAL.
PH30	.30 CAL. & UP ROD

Brass Adaptors

Item# AD2

This adaptor is an excellent accessory to use on a large diameter cleaning rod for pistol and rifle cleaning. The beveled front makes the alignment and transition smooth from .250 diameter cleaning rods (.270 Cal. & UP rods) to bore and chamber brushes, which eliminates an open edge when using a brush on larger diameter rod.

Item# 17AD

This adaptor is used on .17 Cal. & .20 Cal. Pro-Shot cleaning rods. The adaptor changes the #5-40 threads to #8-32 threads. This allows .22 Cal. accessories to screw on the smaller diameter rod. Using the smaller diameter rod is helpful in cleaning tight bore .22 Cal. Rimfire Rifles

Item# AD1

Adapts #8-32 thread to accept #5/16-27 thread on shotgun brushes and accessories (make a rifle rod into a shotgun rod.)

Bore Obstruction Remover

Bore obstruction remover assembles onto the Pro-Shot cleaning rod to remove stuck/broken cartridges from Chamber area or barrel bore obstruction. Excellent for field use!

Item #	Fits
CR-5.56	.5.56MM/.223/.22 CAL. THRU 6.5MM
CR-308	7.62MM/.308/.270 CAL. THRU .45 CAL.

Muzzle Guard

Quality made brass accessory used to protect the muzzle of your firearm when cleaning from the muzzle end. Centers the rod and protects the muzzle crown during cleaning. There are two different sizes available for use on Pro-Shot micro-polished cleaning rods.

Item #	Fits
MG1	.22-.26 CAL. RODS
MG2	.27 CAL. & UP RODS

Military Thread Adaptor

Item# NATO-AD

The NATO Military Adaptor attaches to #8-32 (Standard American Commercial Thread) rod to accept #8-36 (Military Thread/NATO Thread) accessories.

Item# MAD

Adaptor attaches to #8-36 (Military Threaded Rod) to accept #8-32 (Standard American Commercial Thread) accessories.

Rod Stop

Rod Stops are an excellent accessory that can be used to set the rod to the exact length desired during use. This is used in conjunction with our Muzzle Guards on micro-polished cleaning rods in pump, lever action and automatic actions. Makes sure rod is not forced into firing pin when cleaning from the muzzle end of the barrel.

Item #	Fits
ST1	.22-.26 CAL. RODS
ST2	.27 CAL. & UP RODS

Action Chamber Cleaning Tool Kit

This kit is designed to clean locking lug recesses, breech face action rails, and the chamber. The cotton roll adaptor rod is used with cotton rolls to clean the locking lugs. A chamber brush or bore brush with a patch can be used with the extra rod for cleaning the chamber. One of our popular utility brushes is included to clean the bolt face and locking lugs as well.

Item #	Description
ACT/KIT	ACTION/CHAMBER CLEANING KIT
ACT/R	REPLACEMENT COTTON ROLLS (QTY. 50/PKG.)

Small Brass Scraper

Item# SCR-1

Excellent for removing carbon deposits and other debris from the bolt face, rails or any other flat surface on your firearm.

Mini Accessory Brush

Item# MA-BRUSH

The Mini Accessory brush is excellent for lubricating slides and for removing loose fouling and debris during the cleaning process.

Brass Gun Pick Tool/Scraper

Item# GPT

This superior tool's unique design makes an excellent pick or scraper. The design makes it easier to run patches down grooved surfaces and reach difficult places like under the extractor. The brass will not break down or wear like plastic tools, which allows for better leverage and control while cleaning.

5 Piece Gun Pick Tool Set

Item# 5PC-GP

- Four double-ended picks allow for 8 different cleaning options.
- Double ended nylon brush with stiff nylon bristles.
- Works great for all those difficult to reach places, like under the extractor.
- Made from high strength polymer.
- Won't scratch even the finest surface.

Brass Gun Pick Tool/Scraper

Item# PP

The precision pick is designed to remove heavy carbon build-up from the bolt carrier group parts of your AR15/M16/M4 platform rifles. Especially great for cleaning hard to reach places on AR-Platform locking lugs.

GUN CLEANING

Adjustable Bore Guide Fits Short & Long Actions

The "Stopper" Bore Guide Front Prevents Solvent and Fouling from running back into action. Adjusts to fit action lengths precisely.

Bore Guides should be used when cleaning a Bolt Action Rifle. Bore Guides protect the bore throat and keeps the cleaning solvent from getting into the trigger mechanism. Our "STOPPER" Bore Guides are made from aircraft grade anodized aluminum for quality and durability. The brass pin holds the anodized aluminum sleeve in place and does not work loose like plastic parts will. The delrin tip and end screw onto the red anodized aluminum tube to firmly fit and center the rod throughout the cleaning process. The extra tips and solvent port ends included in ITEM#BG22-30 are laser engraved for size identification White Tips/Ends: .22 Centerfire-.25 Cal., Black Tips/Ends: .26-.30 Cal.

Resupply For AR-15/M4/M16 Rifles

Item# AR-SUPPLY

The AR-15 Resupply Kit has everything you need and more! Excellent for range bags or field kits. Packaged in our dual-sided accessory case for convenience and easy use.

- 0.5 FL. OZ. Bottle of 1 Step Cleaner, Lubricant, & Protectant
- 2 Each .223 Cal./5.56MM Bore Brush & Mop
- 2 screw-on nylon all purpose gun brush end
- .22 Cal. & UP Brass Patch Holder
- .22 Cal. Brass Spear Tip Jag
- 1 1/8" Square Patches

- UV Illuminator Bore Light
- 2 Pro-Gold Lubricant Sample Packets

Delrin Rod Guide

When placing over the muzzle, these Delrin rod guides allow cleaning rods to go straight into the barrel while protecting the muzzle area/end. This is designed to keep the cleaning rod centered in the bore while cleaning and protecting the barrel crown. Helpful when it is not possible to clean from the breach end.

- For use with any .250 Diameter .30 Cal. Rods
- Heavy Duty Delrin Construction

Item #	DESCRIPTION
M-14-RG	M-14/M1A Rod guide fits all military style M-14 & M1 Rifles
M1G-RD	M1 Garand rod guide

AR Platform Bore Guides

Pro-Shot's AR Platform Bore Guides are manufactured using Delrin. Delrin is a chemical resistant material that will stand up to continual use Available in the actions listed below. All AR Platform Bore Guides have a solvent port for convenience and efficiency in applying solvent to the cotton patch.

Item #	Caliber	Bore Guide Fits
BGAR15	.223 CAL.	AR-15
BGAR6.8	6.8MM	AR6.8

58BP-10/32	.58 CAL.

.50 Cal. Black Powder Kit

Item# 50BPK

ALL YOUR .50 CAL. CLEANING ESSENTIALS IN ONE CONVENIENT TUBE KIT!

Includes 3 Piece 36" Working Length Stainless Micro-Polished Rod Sections with Swivel handle, Bore Cleaner, 1 Step CLP Bore Brush, Bore Mop, Button Style Jag, and Cleaning patches

Black Powder Worm

Item# WRM-10/32

#10-32 Threads

The worm is the best accessory for patch retrieval. It is made with a heavy gauge steel wire attached to a sturdy brass base for strength. Made for heavy duty use.

Black Powder .50 Cal. Mop

Item#MP50BP

.50 CAL. #10-32 Thread

The brass core in wound through the coupling to increase the Mop's life and performance. This also prevents the mop from pulling apart when reversing the mop in the barrel.

Black Powder Adaptor

Item# AD8

#8-32 Male to #10-32 Female Adaptor

This Black Powder Adaptor allows #10-32 threaded accessories to be used on a #8-32 threaded rod.

Black Powder Ball Puller

Item#PUL2

Fits .45-.58 Cal. with #10-32 Thread

This Ball Puller has a tapered tip with sharp threads for a good grip while pulling a ball from the barrel. It has Steel threads with a brass collar for strength and durability, works for .45-.58 Cal.

Black Powder Rod

Item#1PS-48-BP

#10-32 Thread

Pro-Shot's Black Powder Rod is made of a durable and flexible synthetic material. It is 48" in length and 3/8" diameter. The rod can be used to clean .45-.58 Cal. rifles and is made to be cut down to any length by the user.

Black Powder Scraper

Item#S2

#10-32 Thread

The fouling scraper is made of solid brass for heavy duty cleaning. This scraper can be used to loosen compact fouling and build up.

SWABS AND PIPE CLEANERS

Cotton Swabs

Cotton swabs are great for many applications, such as lubrication cleaning inside actions, getting into barrel chamber, and touch-up bluing spots on barrels, frames, and sights.

ITEM #TT-SWAB-100

ITEM #SWAB-XL
