

A collection of gun cleaning supplies is displayed on a dark, textured surface. In the upper left, a red and black air blower with a long, thin nozzle is visible. Next to it is a long, thin cleaning rod with a coiled section. In the foreground, a coiled red and black rope lies on the surface. To the right, a box of Dual-Kleen cleaning products is prominently featured, showing labels for 'SILICONE CLOTH', 'Dual-Kleen', and 'KleanBore'. Several bottles of CLP (Cleaner, Lubricant, Protectant) are also present, along with various brushes and cleaning tools. The background is dark and textured, possibly a wall or backdrop.

PRO-SHOT PRODUCTS INC. AND KLEENBORE LLC JOIN FORCES

WITH THE PURCHASE OF KLEENBORE BY PRO-SHOT PRODUCTS BACK IN JANUARY OF 2020, THE GREAT TRADITION OF
THE KLEENBORE BRAND HAS PROSPERED AND GROWN.

ITEM# 12GA-SET

DUAL GUN BRUSH COMBO SET

ITEM# UT-Combo

KleenBore's Multi-Use Double End Bronze and Double End Nylon Gun Brushes are the ultimate combination. An essential tool for cleaning all those hard to reach areas where carbon, copper, and oil residue hide. The brushes feature a double ended design that provides a large, contoured series to clean open areas. While the opposite end of the brush features, a line of stiff narrow bristles to tackle hard and precise areas to clean.

Features:

- Stiff Bronze & Nylon Bristles
- Cleaning Power for powder residues & burn marks
- Mil-Spec Design
- Durable Polymer Handle
- Made In USA

KLEENBORE MIL-SPEC CLP

Kleenbore MIL-SPEC CLP (MIL-SPEC 63460F TYPE-A), Powered by BREAK FREE®. Originally this CLP was developed for the U.S. Military and proven in the world's most extreme conditions, along with being trusted by Military and Agencies around the world. Our proven CLP formula cleans burnt powder residue and other fouling found in the bore, on moving parts, and the exterior. Most importantly, it provides Rust and Corrosion Protection, Reduces Friction, and will not break down under Extreme Pressure or Extreme Operating Temperatures.

- **CLEANS** - A proprietary, penetrating formula that breaks loose powder fouling, oil, grime, grease, and corrosion that can damage metal.
- **LUBRICATES** - Reduces friction, retards wear, and stops build-up of foreign matter.
- **PRESERVES** - Creates a long-lasting, protective coating that shields all metals from rust and corrosion.

***Performs in temperatures ranging from -65 F to +475 F, and after saltwater immersion.*

PATCH HOLDER BRUSHES

- Our patented Patch Holder Bore Brushes are designed to provide faster, more efficient cleaning for hunting, tactical, law enforcement, and military applications
- A combined premium bore brush with a slotted patch holder at the front end of the brush creates an integrated cleaning rod accessory
- This blend puts more of the desired chemical in the bore to work by putting a patch in front of the brush and soaking it with solvent
- The patch and phosphorus bronze bristles work in combination for more effective cleaning
- (#8-32 Threads) Available on both rifle and handgun calibers

MAGAZINE BRUSHES & SWAB

- A must have item for competitive shooters, law enforcement, and the military
- The patented MagBrush cleans and addresses a commonly over looked area of maintenance on magazine-fed firearms
- The MagBrush removes gummy residue, dust, dirt, and unburned powder from inside the magazine
- Provides quicker, easier magazine release and increased cartridge-feed reliability
- Companion to the MagBrush series, the MagSwab can be used with a solvent to mop clean the inside of magazines
- Have an additional MagSwab on hand to solely apply a light coat of lubricant to protect both areas after cleaning

CLEANING JAGS

Shooting experts prefer high quality, precision made jags. Our metal jags, draped with a proper sized patch, completely cover the entire circumference of the bore for efficient, thorough cleaning. For ease of use, KleenBore's unique design incorporates a special barbed point tip jag to secure the cleaning patch and prevent solvent soaked patches from falling off.

CLEANING AIDS & ACCESSORIES

- A Muzzle Guard prevents damage to the barrel crown when cleaning from the muzzle end. It also keeps the cleaning rod centered during the cleaning process.
- The Aluminum and Brass Adaptors, adapt #8-32 threads to accept #5/16-27 threaded KleenBore shotgun accessories. Prefect for transitioning your rifle rod set to clean shotgun. These are to be used on the female ends of the ACC13 and ACC13-SAF rifle rod adaptors.
- The ACC13 and ACC13-SAF rifle rod adaptors, convert #8-36 threads to accept #8-32 threads. These adaptors must be used with your rifle rod cleaning set in order to use any #8-32 accessories.
- KleenBore patch holders are a great alternative to a cleaning jag. The brass and black oxide patch holders are great for holding patches to clean the bore for your pistol or rifle. The nylon shotgun patch holder can be used for all shotgun gauges.

- Restore and protect the luster of a firearm with our top-quality silicone injected cotton flannel cloth.
- Returns a brilliant sheen to firearms surface.
- Removes handling marks, fingerprint oil, and provides a layer of rust protection.

CLEANING CLOTHS

PART #	DESCRIPTION
GC220P	SILICONE GUN & REEL CLOTH (10 PK)
GC221	LEAD AWAY CLEANING CLOTH (10PK)

ITEM# GC220S

LEAD AWAY™ CLEANING CLOTH

- This chemically treated cloth is ideal for removing tough lead and carbon build-up.
- Excellent for removing burn rings on cylinders and on stainless steel.

CAUTION: Do Not Use On Blued or Case Hardened Surfaces.

ITEM# GC221

100% COTTON CLEANING PATCHES

- Premium quality 100% cotton patches provides maximum absorbency and bore protection.
- Precision cut to ensure the proper fit and maximum cleaning performance when used in conjunction with our cleaning jags or patch holders.
- These premium quality 100% cotton patches are available in bulk packages, for high volume users such as competition shooters, gun clubs, law enforcement agencies, gunsmiths, and others.
